

## It's all About Family When it comes to MySchool

---

Truth, sharing, caring and preparing for the future - families always want the best for their children when they place them in your centre. ADCO is a family of members of the Association of Daycare Operators, devoted to a common purpose of care and united in their licensing protocols and methods. They set the standard high for those they endorse and partner with and the MySchool Childcare insurance program continues to lead at the forefront of insurance protection and solutions for 2010.

Deborah Gibson and CCV Insurance & Financial stand committed to helping operators navigate the changing political landscape of kindergarten delivery in Ontario and the potential impact this could have on your operations. We stand proud of raising the bar and providing not only enhanced coverage including \$5,000,000 abuse limits, but MySchool will help your budget with a 2010 Lombard loyalty credit, 0% monthly financing options and a JK/SK clause for enrolment protection credit.

We believe that the values of integrity, transparency, excellence and ethics are the foundations that distinguish members of ADCO. With over 18 years building a great insurance track record and experience with Lombard Canada, CCV is pleased to leverage tangible advantages for your centre in 2010 and beyond. Members know that staying united within the MySchool program remains the best choice for the best insurance... period. Collectively we stand strong and will continue to go the distance.

We are proud of protecting childcare operations and we encourage your call to the MySchool team to understand how important your future is to us.

We stand committed to advocacy and excellence and all because, when it gets right down to it, it is all about family, ours and yours.
